

# MICHELLE NASRALLAH

**Pre-grad engineering student**, dedicated to the environment and sustainability, and passionate about making the world a better place. After my masters, I hope to apply my learnings in the field of wastewater treatment and expand this knowledge in a professional setting. With my previous experience in diverse work environments, in addition to my enthusiasm, flexibility, teamwork experience and communication skills, I adapt fast to work conditions and always aim to do my best and keep on learning.
